

The awesome children who attend the Greggs Foundation Breakfast Club at Welbeck Academy were asked to draw their perfect day at school.

Encouraged to let their imaginations go wild, they came up with some pretty wacky ideas, like Science lessons in space, dancing with rabbits and PE with a walking, talking rock ... ! In the end, however, it was super-sized simple pleasures that added up to a perfect day! What would yours be?

In the Shaun below, why don't you draw...

What your perfect day at school day looks like.

Let your imagination run wild!
